CRITICAL TEMPERATURES

FRIDGE

2× DAILY

1–5°C

Legal max 8°C. Best practice 1–5°C.

FREEZER

1× DAILY

–18°C

Or below. No signs of thawing.

COOKING CORE

EVERY BATCH

75°C

For 2 seconds. Centre of thickest part.

HOT HOLDING

EVERY 2 HRS

63°C+

Must be cooked first, then held.

REHEATING

EVERY BATCH

75°C

82°C in Scotland. Reheat only once.

COOLING

TIMED

<8°C

Within 90 minutes. Then refrigerate.

The 2-hour / 4-hour rule
Food in the danger zone (8–63°C) for under 2 hours → refrigerate. Between 2–4 hours → use immediately. Over 4 hours → discard. Always record the time.

CHOPPING BOARD COLOUR CODES

RED
Raw meat

BLUE
Raw fish

YELLOW
Cooked meat

GREEN
Salad/fruit

BROWN
Vegetables

WHITE
Dairy

PURPLE
Free-from

14 DECLARABLE ALLERGENS

Celery

Gluten

Crustaceans

Eggs

Fish

Lupin

Milk

Molluscs

Mustard

Tree nuts

Peanuts

Sesame

Soya

Sulphites

Keep this page posted in your kitchen for quick reference. Under EC Regulation 852/2004, all food businesses must maintain a documented food safety management system based on HACCP principles.

What the EHO will actually ask

PAGE 02

Ten questions inspectors open with — and where in this pack each answer lives. Pin this sheet where the team can see it.

01	“Show me today's opening checks.”	Daily opening checklist - Page 03
02	“Last week's fridge temps?”	Weekly temperature log - Page 04
03	“Who signs them, and when?”	Initials + time columns on every log - Pages 03–08
04	“When was the probe last calibrated?”	Probe check row, temperature log - Page 04
05	“Cleaning schedule — who did Friday's deep clean?”	Cleaning schedule - Page 05
06	“Your last delivery check?”	Delivery check form - Page 06
07	“What did you do when a fridge went out of range?”	Corrective action log - Page 07
08	“Allergens in this dish?”	Allergen matrix - Page 08
09	“Staff hygiene training records?”	Keep certificates filed behind this pack
10	“Hot-hold temperature during service?”	Hot hold row, temperature log - Page 04

The one-minute test

If anyone on shift can point to all ten answers in under a minute, an inspection holds no surprises. Every log in this pack comes with a filled-in example — copy the habit, not just the form.

Corrective action log

BUSINESS

YEAR

Record every food safety issue and how it was resolved. EHOs check this log to assess your management confidence. An empty log suggests problems are not being recorded — not that they don't happen.

DATE	PROBLEM IDENTIFIED	CORRECTIVE ACTION TAKEN	COMPLETED BY	DATE RESOLVED	VERIFIED BY
<i>e.g. 03/04</i>	<i>Fridge 1 reading 9°C at AM check</i>	<i>Food moved to Fridge 2. Engineer called. Thermostat replaced.</i>	<i>J. Smith</i>	<i>03/04</i>	<i>M. Jones</i>

Corrective action log

St James's Cafe — both entries from Thursday 20 August 2026. Problem, action, recheck, second signature: that's the full loop an inspector looks for.

Allergen matrix

List every menu item and tick the allergens it contains; write **T** where it may contain traces. Review after every menu, recipe or supplier change — an out-of-date matrix is worse than none.

BUSINESS

DATE REVIEWED

REVIEWED BY

[illegible]

✓ = contains • T = may contain (traces). Check ingredient labels after every supplier or recipe change and re-date the sheet.

Allergen matrix

St James's Cafe — eight menu items. Note the “gluten free” brownie still carries a T for tree nut traces: free-from claims and traces are separate questions.
